EPD EXPLANATION

Calving Ease Direct (CED) is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Maternal Milk EPD (Milk), expressed in pounds of calf weaned, is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Marbling EPD (Marb), expressed as a fraction of USDA marbling score, is a predictor of the difference in marbling of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (REA), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

Dollar C (\$C), Combined Value (\$C), an index, expressed in dollars per head, which includes all traits that make up both Maternal Weaned Calf Value and Beef Value. It also includes CED, CEM, WW, YW, Milk, HP, DOC, MW, Angle, Claw, dry matter intake, marbling, carcass weight, ribeye and fat.

Thank you for your interest and support of our program. We do appreciate it.

The Dubs Family

Dear Friends,

The Dubs Family would like to welcome you to our 2022 Registered Angus Private Treaty Bull Offering. This is our 34th year of selling registered Angus bulls in Montana.

As in past years, we are feeding our private treaty bulls at our Bridger farm. Our sire selection includes Niagara, Value Added, Unique, Growth Fund, Lucky Charm, Emerald, Chairman, Innovation Turning Point, Party Top and Double Trac.

Our pre-conditioning vaccination program in August included Cattle Master Gold FP5, Vision 8/Somnus w/ Spur, Pulmo Guard PHM1 and they were poured with Dectomax. In late September, they received Bovi-Shield Gold FP5, Vision 8/Somnus and Fusogard.

Our feeding program again was a high roughage ration to achieve a moderate gain to preserve structural soundness and fertility. That ration included chopped hay, silage, and corn. We prefer not to push the bulls too hard while in the test and aim for an average gain of 2.5 to 3.0 pounds per day.

We will be weighing the bulls off test and clipping the first week of March. Dr. Lyle Bischoff of the Powell Vet Clinic will also fertility test at that time. We will mail a supplemental flyer with the fertility results to you when the data becomes available.

We are proud of the progress we continue to make in carcass traits. The highest marbling EPD is .95 and the highest ribeye is 1.17. In addition to EPD's and Genetic Testing, we tabulate and analyze actual Ultrasound Data. All the bulls were ultrasounded for marbling, ribeye, rib fat and rump fat by Eric Geving, Precision Ag Services, Cody, Wyoming. This information is on page 5.

We re-tagged the bulls with lot numbers and cataloged them by sire groups. We have included the cow tag number in the index. The cows are here at Bridger close to the barn and you are more than welcome to view them and their baby calves. Our cows summered on our dryland pasture 10 miles north of Columbus. Just like most of you, we were extremely dry. Another trait we feel is very important is docility. People who help us with our cattle always comment what a tame set of cows we have.

Our 2022 Private Treaty Sales will open on **Saturday, March 19 at 1:00 pm**. The bulls will be priced from \$2,250 to \$4,500. We will have a board in the barn with all the sale lot numbers. Please write your name or buyer number by the Lot Number of any bulls you are interested in by 1:00 pm. If more than one person is interested in the same bull by 1:00, we will have a bid-off on that bull. Guidelines and examples will be posted in the barn.

Party Top is a low birth, high carcass traits bull we sold to Apex Angus, Valier, Montana in the 2019 Midland Bull Test Sale. He was sired by Flat Top and out of one of our best cows. Sire of #27.

Please call us Saturday morning if you cannot be to the farm by 1:00 and we will write your name by the bull(s) you are interested in. You can participate in the bid-off over the phone if the need arises.

Please give us a call with any questions. Cell phone service is not always dependable at the barn so please let us know ahead of time and we will be sure to call you before 1:00 when the sale begins. Our cell numbers are 406-208-8653 (Louis) and 406-208-8643 (Kathy). We will have coffee and donuts in the morning and lunch beginning at noon that day. Kathy, I and our family, Allison Dubs, Katrina, Adam, Reagan and Rhett Petersen, as well as Adan Gandara will be around all day to answer any questions you may have.

We look forward to seeing you this spring and hope you stop by to look at the bulls at your convenience. We appreciate your past support of our program.

Louis and Kathy Dubs

INFORMATION

Louis - cell **406-208-8653**
 Kathy - cell **406-208-8643**
 House - 406-652-7515
 windingriverangus@gmail.com

WINTERING - Free wintering until May 1.

VOLUME DISCOUNT - We will offer a 2% discount on 2 bulls, 3% on 3 bulls, 4% on 4 bulls and a 5% discount on 5 or more bulls purchased by the same person.

PERFORMANCE DATA - Birth weights, 205 day weaning weights, nursing ratios, and dam's production records are included in this catalog. Yearling weights, Average Daily Gain, and projected March 19 weights will be available March 5. We will send you a supplemental flier with this information and it will be available sale day. All EPD's are current as of 2/11/2022.

FERTILITY - Dr. Lyle H. Bischoff, Powell Vet Clinic, Powell, Wyoming will be fertility testing the bulls again this year. That information will be included in the supplemental flier and available on sale day.

CARCASS and ULTRASOUND DATA - The bulls were ultrasounded by Eric Geving, Precision Ag Services, Cody, Wyoming for Carcass Traits on January 17 and the data was tabulated by the American Angus Association. That information is on page 5.

TEST AND SALE SITE - The bulls are located four miles south of Bridger on Hwy. 72 on the west side of the road. The address is 1811 Hwy. 72, Bridger, Montana, 59014.

Not Responsible for Accidents

2022 BREEDING SEASON GUARANTEE

For those bulls that sell for \$3,000 or more, we will split the risk with you 50-50. This plan is good for the first 90 days after the bull is turned out. If he becomes injured during that time and cannot return to service, have your vet take a look at him and give you a writ-ten diagnosis/prognosis. The bull can then be sold for salvage. Take the amount you paid for the bull minus the salvage value and then divide that amount by two. That will be your credit for another bull. Please let us know as soon as possible and no later than 9/15/2022.

Example: You pay \$3,500 for the bull. He gets injured 45 days into the breeding season and the vet de-termines he is through and puts it in writing. You take him to the auction yards and salvage him for \$1,500. You send us a copy of the vet's letter and the ticket from the auction yards. We give you \$1,000 credit on another bull from us in 2022 if one is available or at next year's sale.

Amount paid for the bull \$3,500
- Salvage Value - 1,500
2,000 ÷ 2 = \$1,000 credit

Another Select Sires bull that produces easy-keeping, deep bodied, and sound structured cattle. Note his outstanding carcass numbers at .85 for marbling and .96 for ribeye. He also combines good growth with low birthweight. Sire of #9 - 11.

Ultrasound Carcass Data

Although genetic testing is a very important tool that we use, we also like to analyze the actual carcass ultrasound data because we believe that information is one form of enhancing performance records. Eric Geving, Precision Ag Services, Cody, Wyoming, ultrasounded these bulls as well as our replacement heifers again this year. When you look through the catalog you will notice that every bull has a positive EPD for both marbling and ribeye. The following shows actual ultrasound results for %IMF (Marbling), Ribeye, and Rib Fat. Ultrasounding was completed early on January 17, 2022.

The five highest marbling and ribeye bulls are in bold.

Lot #	IMF	Ribeye	Rib Fat
